- Optional online, password protected [Group Music Request account](#) for your family and friends prior to your wedding day. You will have full access to this account, we will tally the results up for you and get your approval prior to your wedding day.

STEP 3 - Available Options

Please select any options that you desire (optional - multiple selections allowed):

a. Martin Intelligent Lighting Package \$800.00 [View Intelligent Lighting Package Details and Videos](#)

Already included in the Platinum and Signature Wedding Packages. Available as an add-on for the Economy and Standard Wedding Packages.

Intelligent Lighting is the state of the art way to ensure that your event is absolutely stunning and to create a visual experience that you and your Guests will never forget.

The lights are controlled at the DJ booth and all of the color patterns discussed ahead of time with you. Our intelligent lighting package includes the same name brand equipment as found in high end clubs at South Beach, The Obama Presidential Inauguration and The Olympic Games in China. There simply is NOT another mobile disc jockey company in South Florida that offers this quality of lighting effects to their clients.

Jamrock Entertainment, Inc. has worked with many clients to produce lighting for their events that has ranged from high end, classic elegance to magical, illusionary, fantasy effects to transforming their home or reception site into a night club for the evening!

Our Intelligent Lighting Package Includes (optional a la carte prices below):

- (2) Martin Mania SCX-700 (\$250.00)
- (2) Martin Mania EFX-500 (\$250.00)
- (1) Martin Raptor (\$200.00)
- (1) Martin PR1 (\$200.00)
- Professional Lighting Truss rated at 1,000 pounds (\$75.00)
- Stainless steel safety clips for each light (No Charge)
- Martin Light Jockey Controller (\$50.00)
- Second dedicated laptop computer (\$25.00)
- (2) Two Hours of set-up time prior to your wedding (No Charge)
- Optional consultation meeting to plan your lighting color schemes and patterns (No Charge)

This option includes the two hours of set-up time that will be required prior to the start of your event, the breakdown time following your event, and an optional in person consultation meeting with you prior to your event to finalize your lighting design ideas.

Requires: A dedicated electrical outlet that is NOT on a dimmer switch at your Venue. We will coordinate with your Venue to ensure there is adequate power to run the intelligent lighting package.

BUDGET TIP: If you would like intelligent lighting but the full package is outside of your budget consider a single martin raptor light as a less expensive add-on. The raptor is automatically included in all of our packages except for the economy package.

To make your lighting effects more dramatic - consider our haze machine or bubble machine.

c. Monogram -Text - LOGO in Lights GOBO Projection \$150.00 [View Monograms / Text and Graphics in Light - GOBOs Examples](#)

Already included in the Signature Wedding Package. Available as an add-on for the Economy, Standard and Platinum Wedding Packages.

Custom GOBOs lighting is very popular and looks very elegant. Perhaps you have seen examples of GOBOs lighting on the Platinum Weddings TV show or in person at a corporate event or trade show.

- Custom designed stainless steel cut GOBO
- Graphic Design Artwork time included
- You keep your custom steel cut GOBO after your wedding as a keepsake.
- Image file of your design/ monogram which you can then use to coordinate your wedding stationary, napkins or whatever

you can imagine in keeping with your wedding theme! (.JPEG, .GIF, .PNG)

Your custom designed monogram/ name/ text/ image can be projected anywhere in the room - floor, walls, center of the dance floor. The projected image can be stationary or rotate at a controlled speed. Final projected image will be 5 feet to 50 feet as specified by the client and is typically sharp white light, but can be whatever color light the client chooses to match their event theme.

Many clients have us project their custom image on the dance floor as a dramatic focal point during guest arrival, cocktails, their first dance, dinner, and then have us move their projected image to a wall once the dance party begins.

We can either design the graphic artwork, text or monogram for you with your input and final approval, or you may provide us with your own design. If you design your own- the black lines of your image or text will become the projected light. Simple black and white line art works best and is the least expensive to produce- but really the possibilities are endless. Examples can be found on our website (blue hyperlink is above).

Requires: Martin PR1 Intelligent Light, Lighting Truss and Light Jockey Controller - already included in the Platinum and Signature Wedding Packages. Included in the Intelligent Lighting Package. Available a la cart for the Economy and Standard packages.

Requires: 2 weeks advanced notice for custom graphic design to create your one of a kind steel cut GOBO. Custom graphic art design is \$150.00 for one color of light. If your design will be projected in multi-colors the final design cost will be more (multi-colors are achieved by adding stain glass layers to the steel cut GOBO).

d. Martin PR1 Lighting for GOBOs \$200.00 [View Martin Intelligent Light PR1 Video \(left side of page\)](#)

The Martin PR1 Intelligent Light is required for Monogram - Name - Text in Lights Projection. Already included in the Platinum and Signature Wedding Packages and the Intelligent Lighting Package. Available as an add-on for the Economy and Standard Wedding Packages.

The light jockey controller is used to adjust rotation speed (if desired by the client) and final projected image size.

- (1) Martin PR1 250 Watt Halogen Intelligent Light
- Lighting Truss rated at 150 pounds
- Light Jockey Controller

g. Martin Raptor Intelligent Lighting \$200.00 [View Martin Raptor Intelligent Light Videos](#)

This add-on is only for the Economy Wedding Package. The Martin Raptor is already included in the Standard, Platinum and Signature Wedding Packages. Already included in the Intelligent Lighting Package.

- (1) Martin Raptor Intelligent Light
- Lighting Truss rated at 150 pounds

To make your lighting effects more dramatic - consider our haze machine or bubble machine.

m. Professional Martin Haze Effects \$150.00 [View Martin Hazer Details and Video](#)

One of two options in the Platinum Wedding Package. Already included in the Signature Wedding Package. Available as an add-on for the Economy and Standard Wedding Packages.

A beautiful necessity to enhance your lighting effects on the dance floor. This is the same model that was used by the Pink Floyd tour to produce their world renowned laser light show.

- Martin 24/7 JEM Hazer Machine
- Professional Martin Hazer Fluid

Adjustable up to 20,000 cubic foot of haze per minute and can be turned on/off and the output adjusted as the client specifies (maximum output is high enough to ensure haze effects outdoors at night and is sufficient for ball room sizes that hold up to 1,000 Guests).

We use the Martin Hazer because of its professional effect- this is NOT a thick fog effect that you may have seen at a club- the haze effect is subtle and simply enhances your dance floor lighting by reflection in the air. (Even with the hazer at maximum output- You will still be able to see across the dance floor!)

Requires: prior permission from your Venue. Assure your venue this is not your typical "fog" machine! The haze fluid is non-toxic, non-irritating to skin and lungs, non-damaging to interiors and clothing and will not set off smoke alarms. Printable Chemical Safety Data Sheets are available - click blue hyperlink above or we can e-mail to you).

n. Professional
Bubble Blast
Machine

\$150.00 [View LeMaitre Bubble Effects Details and Video](#)

One of two options in the Platinum Wedding package. Already included in the Signature Wedding Package. Available as an add-on for the Economy and Standard Wedding Packages.

Create an enchanted effect that is fun both outdoors in the sunlight, or indoors paired with dramatic lighting.

- Le Maitre Professional Bubble Effects Machine
- Professional Theatre Grade Bubble Fluid

This is a professional bubble machine with adjustable massive dual fan output technology that produces 100s of high floating, long lasting bubbles per minute. You let us know ahead of time exactly when and for how long you would like your bubble effects to occur.

Requires: prior permission from your Venue. Bubbles are non-toxic and non-staining to fabric (chemical safety data sheets are available for the client and the venue and can be printed off of our website by clicking the blue hyperlink above. We are also happy to e-mail to you- just ask).

p. Professional
Snow Fall Effects

\$250.00 [View Little Blizzard Details and Event Photos](#)

Available as an add-on for all of our Wedding Packages.

This is the same model that was used to produce snow fall effects in the Chronicles of Narnia Movie: A Lion, a Witch and a Wardrobe.

- Little Blizzard Snow Machine
- Professional Little Blizzard Fluid

Produces non-toxic foam flakes which evaporate upon impact, creating a dramatic effect perfect for theater or audience participation. An adjustable blower determines how far snow travels. Output varies from flurries to a blizzard. You can specify exactly when, for how long and the output of snow fall effects at your event.

Requires: Prior permission from your Venue. Please assure your Venue that there is no clean-up mess. The snow fluid is non-toxic and non-staining to fabric and will evaporate upon impact. (Chemical safety data sheets are available for the client and the venue and can be printed off of our website from the Snow Machine page by clicking the blue hyperlink above. We are also happy to e-mail to you- just ask).

q. Second
Independent Sound
System

\$300.00 [View DB Technologies Speakers Details and Photos](#)

Available as an add-on for our Standard, Platinum and Signature Wedding Packages. Not available for the Economy Wedding Package.

For clients who require music to be played in two separate rooms simultaneously, or for clients that do not want to experience downtime for us to move our set up to two different locations.

- (2) TWO DB Technologies Speakers rated at 240 watts LF, 80 watts HF each
- Behringer Mixing Board to control volume and mixing effects
- Dedicated Laptop Computer
- PA System
- Cordless microphone for your use
- DJ Assistant will monitor the second sound system

If the second, independent sound system is to be used for cocktail hour- we will discuss exactly what music you would like and custom mix it for you ahead of time.

BUDGET TIP: This is a common time line "issue" for many events- Guests moving from one location to the next as the event progresses. It occurs if there is a separate cocktail location or at weddings when the ceremony site is different from the reception site. Because it is a common issue, many Venues have cocktail sound systems available. In some cases, it will be cheaper for you to rent your second system from the Venue as opposed to from Jamrock Entertainment, Inc.

If you require a second system- check with your Venue for their prices and sound system properties. If they are less expensive and match your sound requirements we are still happy to mix your cocktail or ceremony music for you- we simply need to know the file format that the venue requires: .mp3 or .cda).

Some venues use this common "issue" as a way to tack on a large extra charge at the last minute to your bill once you finally realize you'll need a second system and are "trapped".

You have two options if you find your venue will charge a larger amount for a second system than Jamrock Entertainment, Inc. You can either rent a second system from Jamrock Entertainment, Inc. or we will be happy to move a single sound

Jamrock Entertainment, Inc. (561) 929-9929

www.JamrockEntertainment.com

system to the next location for you to help you stay within your budget. We have done weddings where we have had to set up and breakdown at three different locations (ceremony/ cocktail/ reception) to help our clients stay within their budget. Contact us to discuss if you find yourself in this situation while planning your event and we'll work with you to find the best solution for you.

z. "Surprises" In Your Final Bill \$0.00

At Jamrock Entertainment, Inc. - We believe in letting our clients know their final price upfront. We won't tack on additional charges right before your wedding day and try to "trap" you. We'd be very upset if someone did that to us and therefore we won't do that to you!

So that there are no "Surprises" with your final bill, here are some things that will affect your final cost.

Your final Bill will actually be LESS than quoted if:

- \$200.00 OFF all weddings booked (1) ONE Year in Advance (promo code #200)
- \$100.00 OFF all weddings booked (6) SIX Months in Advance (promo code #100)
- 20% OFF all Weddings Held Monday through Thursday
- 10% OFF if you are one of our previous Clients
- If you have a promotional coupon from Jamrock Entertainment, Inc. we will honor it

Your final Bill will be MORE than quoted if:

- Your wedding date falls on a recognized Holiday
- Your wedding location is farther than 30 miles from Boca Raton
- Your wedding is at two separate locations that we will have to drive to
- Your wedding is not held on the ground floor and no elevator is available

- You are welcome to decide the night of your wedding that you want us to stay and continue to play music longer than our initial contract. We are very good at getting the crowd up and dancing and keeping them there- so this does happen frequently. In that case, our half hour or hourly rate will be applied for the additional time and we would like to be paid in cash.

You are welcome to make changes to your wedding package right up until ten days prior to your wedding. If you are very interested in a particular piece of equipment we recommend that you reserve it sooner rather than later. Please understand that as your wedding date approaches, if we think you are not interested in a particular piece of equipment we may have rented the equipment out elsewhere.

Custom text and monogram GOBOS require a minimum of two weeks to create and we require prior payment for the GOBOS in full to cover our design and manufacturing cost.

Deposit to Reserve Your Wedding Date and Sales Tax

- Our standard deposit to reserve an event date is 499.99
- Once your deposit has cleared, we will block your event date in our check availability system.
- Jamrock Entertainment, Inc. is a licensed small business in South Florida. 6.5% Sales tax will apply.

Payment Options

- We expect to be paid in full 10 days prior to your wedding date.
- You can use our secure Pay Pal server through your on-line planning account to make credit, debit card or electronic check payments or you can send us a check or money order through the mail.

Our Rain Date or Reschedule Policy

All that we require is TWO HOURS cancellation notice. We don't even need an explanation! We'll be happy to reschedule your event and transfer your contract and payments to any date we have available.

On-line Planning Forms, Wedding Itinerary and Music Selections

- Final music selections for your ceremony, reception specialty and family dances, cocktail hour and dinner hour are due ten days prior to your wedding date. This is to ensure we have adequate time to obtain and professionally mix these very important personalized music selections.
- Final details in your on-line planning forms are due ten days prior to your wedding date. This is to ensure we have adequate time to create your full wedding itinerary and to edit it as per your instructions until we obtain your final approval.
